

Edge-ucation - It's all about cutting hair !

Expand your creativity and learn skills to become confident in your approach to cutting and hair design. We offer the best left and right handed cutting workshops available, which includes the use of our premium scissor kits. This course is designed to help you get the best out of your scissors, and be inspired by what they can really do.

Develop techniques which enable you to cut in comfort, reduce the strain on your hand, arm and back and cut hair in a more efficient way. With years of experience in both scissor manufacturing and hairdressing, the knowledge provided in this course will benefit beginners and experienced cutters alike.

All courses are conducted by our Technical Coach, Sue Edwards. Whether it be a workshop at our training centre, a one-on-one session in our showroom or in-salon training, this course is a must do for all hairdressers.

Every Month on a Monday or Tuesday

@ Chumba Concept Training Centre 109 Chapel St Windsor

Investment - \$250
